

EVEREST Hosted

EVEREST *Where Customer Service Meets Quality.™*

More than 10 years ago, Lynk Software was one of the first to market an enterprise-class customer complaint tracking solution *with* corrective action tracking *and* comprehensive reporting all in one off-the-shelf package.

Today, Everest Hosted delivers the latest generation of customer **complaint management solutions** with unmatched speed and flexibility. Server hardware including backups and security features fully compatible with Everest system requirements are deployed in a **secure hosted data center infrastructure**.

Choosing Everest, you get experienced project leadership and the trusted solution across industries and around the globe in manufacturing, financial services, food products, medical device, health care and government.

Save time with **bundled hardware and software** including Everest Express Support® provided by the team of experts at Lynk Software.

Test drive it today!
